

## BARNTON PARISH COUNCIL

### Fit to Attend: Meeting Participation Guidance

To safeguard the health and wellbeing of councillors, staff, and members of the public, **anyone who is unwell is asked not to attend parish council meetings in person.** This includes symptoms of infectious illnesses or any condition that may pose a risk to others, particularly those with underlying health issues or vulnerable family members.

Where possible, individuals who are unable to attend due to illness may submit written reports, comments, or apologies in advance, in line with normal meeting procedures.

This approach supports a safe meeting environment and helps ensure the council can continue its business without unnecessary risk to attendees.
